

Operations Building – Carneys Point, NJ

Design Data

Owner

Carneys Point
Township, New Jersey

Location

Carneys Point
Township, New Jersey

Total Project Cost

\$184,000.00

This project involved the design and construction of a pre-engineered steel building to house the (main operations building) administrative offices, sampling laboratory for the digester, sludge, clarifier, ultra-violet building) garage for the sewer vac truck and workshop. The polymer injection system is housed on the lower floor along with the dumpster area, belt press and de-watering system on the upper level along with belt press electrical control panels. Toilet rooms, HVAC room, security lighting and interior light and heat. Central alarms (audible alarms and call boxes) for high water alarms in the clarifier, head works, etc. for the entire plant.
